

# Search for Content on Project MUSE

Start your search using either the **simple search box** at the top of the page or use the **multiple search boxes** on the left side to construct a more targeted search.

## Search using one or more search boxes:

- Enter term(s) in the search box(es).
- Use quotations to search for a phrase. Example “ancient roman history”.
- Select either **Content**, **Title**, **Author**, or **Publisher**.
- Select **And**, **None**, or **Or**.

## Login to Your [MyMUSE Account](#)

**Access via Individual Login:** Login to your MyMUSE account to gain access to your purchased content and personalization features.

**Access via Your Institution:** Login to your Institution to gain access to your institution’s subscribed content.

## Search for Subscription Content

Even if not affiliated with an academic institution, you can still search for paid/subscribed content.

Type your desired search terms into the search boxes on the left and use the dropdown options to set your parameters and search by **content**, **title**, **author**, or **publisher**.

## Search data types

**Content:** Searches in all titles, citations, journal articles, book chapters, abstracts/summaries

**Title:** Searches in the title of a journal article or the title of a book

**Author:** Searches for content by a particular author

## Ways to link your search terms

**And:** Automatically combines terms (automatic AND) to search within Content, Title, Author, or Publisher

**None:** Excludes content with any term(s) typed in the search box using None

**Or:** Automatically inserts OR between the search terms

The screenshot shows a 'Filter Results' panel with a 'New search' button in the top right. Below the title is a 'Clear all facets' button with a red 'X' icon. There are two filter rows: the first has a 'Content' dropdown, the text 'water rights', and an 'And' dropdown; the second has a 'Content' dropdown, the text 'conservation', and an 'And' dropdown. At the bottom left is a '+ Add Field' button, and at the bottom right is a 'Search' button.

## Use Facet to Filter Search Results

Use **facets** on the left side of the search page to refine your results. Search defaults to 'Only content I have access to', which is the MUSE content subscribed to or purchased by your institution. To see all content on MUSE, subscribed and not subscribed, select all content.

### Content Type

The number of journal articles (articles and reviews) and books with content relevant to your search term. Content based on what an institution has access to. Check boxes to include or exclude **Reviews**.
