

# Get Access to Thousands of Latin American Books

Groundbreaking humanities and social sciences research is published daily across Latin America, but it hasn't always been easy to access online. Project MUSE is committed to elevating the global visibility of quality scholarship, so we worked with the Seminar on the Acquisition of Latin American Library Materials (SALALM) to understand library needs and with the Association of University Presses of Latin America and the Caribbean (EULAC) to establish relationships with dozens of Latin American publishers to bring you a wealth of new titles in Spanish.
