Search

Type your desired search terms into the search boxes on the left and use the dropdown options to set your parameters and search by *content*, *title*, *author*, or *publisher*.

The example retrieves all Content with (the terms) water rights AND all Content with the term conservation. This is a broad search from which further filtering can yield more targeted results

Search data types:

Content - searches in all titles, citations, journal articles, book chapters, abstracts/summaries

Title - searches in the title of a journal article or the title of a book

Author - searches for content by a particular author

Ways to link your search terms:

And - automatically combines terms (automatic AND) to search within Content, Title, Author, or Publisher

None - excludes content with any term(s) typed in the search box using None

Or - automatically inserts OR between the search terms

Publisher - searches for all books and journals by a particular

Use Facets to Filter Search Results

- Use the facets on the left side of the search page to refine your results.
- Search defaults to 'Only content I have access to', which is the MUSE content subscribed to or purchased by your institution. To see all content on MUSE, subscribed and not subscribed, select All content.
