Start your search using either the simple search box at the top of the page or use the multiple search boxes on the left side to construct a more targeted search.

**SEARCH - USING ONE OR MULTIPLE SEARCH BOXES**
- Enter term(s) in the search box(es) -- Use quotations ( “ “ ) to search for a phrase
- Select either Content, Title, Author, or Publisher
- Select And, None, Or

The example retrieves all Content with (the terms) water rights AND all Content with the term conservation. This is a broad search from which further filtering can yield more targeted results.

**SEARCH DATA TYPES:**
- Content - searches in all titles, citations, journal articles, book chapters, abstracts/summaries
- Title - searches in the title of a journal article or the title of a book
- Author - searches for content by a particular author

**WAYS TO LINK YOUR SEARCH TERMS:**
- And - automatically combines terms (automatic AND) to search within Content, Title, Author, or Publisher
- None - excludes content with any term(s) typed in the search box using None
- Or - automatically inserts OR between the search terms
- Publisher - searches for all books and journals by a particular
USE FACETS TO FILTER SEARCH RESULTS

- Use the facets on the left side of the search page to refine your results.
- Search defaults to ‘Only content I have access to’, which is the MUSE content subscribed to or purchased by your institution. To see all content on MUSE, subscribed and not subscribed, select All content.

FACETS TO FILTER YOUR SEARCH RESULTS:

**Content Type**
The number of journal articles (articles and reviews) and books with content relevant to your search term. Content based on what an institution has access to. Check boxes to include/exclude Reviews.

**Publisher**
Select a publisher to view only content by that publisher within your search results.

**Series**
To view search results contained in a book series, select the name of the series.

**Journal**
To view or limit search results contained in a specific journal, select a journal.

**Author**
Select an author to view only content by that author within your search results.

**Language**
Select a language to view only content in that language within your search results.

**Research Area**
Project MUSE organizes content into subject groupings called Research Areas. Select a Research Area to see results in that subject.

**Year**
Click on the down arrow to select a date range to limit to content published during that period.
